

# Ready to launch

Did you find out the screen size of your device? To tell Dontprint about the screen size, follow these steps:

1. From the Firefox menu, choose  
*Tools* → *Dontprint* → *Configure Dontprint*.
2. Pick the "Device" tab.
3. Select your e-reader model and enter the screen width and height.
4. If you are confident that you found out the correct width and height, please consider checking the box to to send the values to me.

If you could not find out the screen size then maybe this is the wrong test document for your e-reader model. Follow steps 1 and 2 above, then make sure to select the correct e-reader before you click the button "Help me find out the correct document size". You should then receive the correct test document. If the problem persists, please consider filing a bug report at <https://github.com/robamler/dontprint/issues/new>
